

NHAI will receive technical assistance from the state-owned power generator THDCIL as per an agreement, the company announced.

According to a release from the business, “THDC India Limited (THDCIL) has signed a Memorandum of Understanding (MoU) with the National Highways Authority of India (NHAI) to provide technical services as the technical consultant.”

THDCIL CMD R K Vishnoi said under the agreement, his company will be responsible for assessing landslide susceptibility areas and recommending mitigation measures for vulnerable slopes between Udhampur and Ramban on NH 44.

“The stretch of road is of utmost national strategic importance, as it provides the vital link of the nation with Kashmir valley. This collaboration between THDCIL and NHAI aims to enhance road safety and ensure the stability of the region’s infrastructure, particularly the National Highway, by addressing the risks associated with landslides,” he added.

This partnership will contribute to the overall improvement and maintenance of critical transportation infrastructure in the region, Vishnoi said.
