

Following a successful commissioning, the 48.8 MW fifth component capacity of the 296 MW Fatehgarh Solar PV Project in Jaisalmer, Rajasthan, is declared to be operational beginning at 00:00 on August 5, 2022. 296 MW's full capacity has now been put into operation.

As a result, NTPC's commercially installed standalone capacity has increased to 54818 MW, while its commercially installed group capacity has increased to 69183 MW.

NTPC developed the PV project under the [Ministry of New and Renewable Energy's](#) (MNRE) Central Public Sector Undertaking (CPSU) Scheme Phase II. It won the project through viability gap funding (VGF) based competitive bidding in an auction by the [Solar Energy Corporation of India](#) (SECI) in 2019
