

A 450 MW ISTS-connected wind power project in Tamil Nadu that was granted under SECI tranche X has 51 MW of wind power capacity has commenced operation, according to JSW Renew Energy Two Limited, a step-down subsidiary of JSW Energy Limited (the company). With this, a total of 78 MW of wind capacity has been ordered by the Company under SECI X. After that, the total installed capacity is 6,615 MW, and the capacity that is now under construction, 2,855 MW, is expected to be completed over the course of the next 12 to 18 months.

The Company has set a target to reach 20 GW capacity by 2030 and near-term target of 10 GW by 2025, with a total locked-in capacity of 9.9 GW the company is well placed to achieve its targets well ahead of time.

In addition, the Company has forayed into energy storage space and has currently locked in 3.4 GWh of energy storage capacity by means of battery energy storage system and hydro pumped storage plant.

JSW Energy has set an ambitious target for 50% reduction in carbon footprint by 2030 and achieving Carbon Neutrality by 2050 by transitioning towards renewable energy.
