

Airports Authority of India (AAI) will commission a new terminal building at the Jabalpur airport in Madhya Pradesh by March next year.

According to the AAI, the new terminal building will be equipped with world-class passenger amenities and will be able to handle 500 people during peak hours.

The terminal structure, which will cover an area of 1,15,315 square feet, will have three aerobridges, an innovative baggage screening system, a contemporary food court in the landscaping area, and well-planned parking for over 300 automobiles and buses.
