

Alphen Pigment and Chem is a well-established company in the pigments and chemical industry. The company has a strong reputation for delivering high-quality products and services to its customers. With its new manufacturing unit in Saykha industrial Estate, Ta: Vagra, Bharuch, Gujarat, Alphen Pigment and Chem is poised to take its operations to the next level. The new pigments manufacturing unit will have a capacity of 200 MT/M and will also produce Dyes Intermediates with a capacity of 225 MT/M. This will greatly increase the company's production capabilities and help it meet the growing demand for its products in the market. The estimated cost of the project is Rs. 134 million, and the company is committed to investing in state-of-the-art technology and equipment to ensure the best possible outcomes for its customers. The construction of the new manufacturing unit is set to begin in February 2023 and is expected to be completed by October 2023. Alphen Pigment and Chem has already taken the necessary steps to obtain environment clearance for the project, and is dedicated to ensuring that all operations are conducted in an environmentally responsible manner.
