

Alstom, a global leader in sustainable and green mobility solutions, recently opened its largest components manufacturing facility in Asia in Coimbatore, which is dedicated to improving industrial efficiency in manufacturing components for a variety of prestigious national and international projects.

According to a news release from the firm, the facility was inaugurated in the presence of Emmanuel Lenain, Ambassador of France to India, and Alain Spohr, Managing Director, Alstom India & South Asia.

The company said this is the largest components manufacturing facility in Asia and is dedicated to improving industrial efficiency in manufacturing components for various prestigious national and international projects.

“Alstom’s industrial presence in Coimbatore has evolved across three sites since 1978. This new site is spread over a total area of 15 acres and has an installed capacity of 2.1 million hours,” it said and added that the site will create 10,000 direct and indirect jobs and currently has a gender diversity rate of 20 per cent.
