

[Amplus Solar](#), a provider of clean energy solutions, announced a partnership with EverRenew, a company within the NTC group, to build a 200 MWp open-access solar power plant at Thoothukudi in Tamil Nadu. According to a corporate release, the 200MWp plant is anticipated to produce over 450 million units of green power in its first full year of operation. According to Amplus, the wind-solar hybrid plant in Tamil Nadu is the company's second open-access project there. "We are happy to set up our first wind and solar hybrid with an experienced partner, EverRenew, in the state. "Wind-solar hybrids have vast potential in enhancing grid stability, and we look forward to setting up more such projects across the country in the coming years," Sharad Pungalia, MD and CEO of Amplus Solar, said.
