

Ansell, a global leader in protection solutions, has opened its most significant greenfield manufacturing plant in India, investing \$80 million. The new facility is located in Jhagadia, Gujarat and is expected to create employment opportunities for the local population. The plant will manufacture a wide range of surgical gloves, examination gloves, and other medical protective products. The facility is equipped with the latest technology and is designed to be environmentally friendly.

The opening of the new facility is part of Ansell's strategy to expand its manufacturing capabilities and strengthen its presence in the Indian market. The company is committed to providing high-quality products and meeting the growing demand for personal protective equipment in India and around the world.

Ansell's investment in the new plant is expected to boost the local economy and support the government's efforts to promote manufacturing in India. The company aims to make a positive impact on the community and contribute to the development of the healthcare sector in the region.
