

[Aparna Enterprises Limited](#), a manufacturer of building materials, opened a new production line in Bachupally, Hyderabad. The uPVC brands Aparna Venster and Okotech's needs for uPVC profiles and window and door systems will be met by the production line.

The new line will expand the uPVC profile production capability of Aparna from 450 tonne to 700 tonne per month. It wants to augment it further to 1,100 tonne per month in 2023.

"Construction industry had posted a 17% growth rate in 2021. The building material sector also had witnessed a similar growth. The expansion is aimed at leveraging the growing opportunities, especially for uPVC window and door systems," said T Chandrasekhar, Director-Technical.
