

Asmeeta Infratech is a prominent Indian infrastructure development company that is actively involved in various projects across the country. The company has an established track record of successfully executing infrastructure projects that contribute to the socio-economic growth of the region. Asmeeta Infratech is now planning to set up an integrated textile park in Bhiwandi, Thane, Maharashtra. The project aims to create a world-class infrastructure facility that will foster the growth of the textile industry in the region. The project will involve the development of a state-of-the-art textile park that will offer various amenities, such as industrial sheds, warehouses, effluent treatment plants, and common facilities like parking, administrative blocks, and power stations. The estimated cost of the project is Rs.2624 million, and the construction activities are set to commence in March 2023, with an expected completion date of December 2030. As of February 2023, environment clearance for the project is underway, which demonstrates the company's commitment to sustainable and responsible business practices.
