

Aster DM Healthcare, one of the major private healthcare service companies in the Gulf Cooperation Council (GCC) and India, has opened its latest integrated advanced healthcare centre in Trivandrum, Kerala.

The hospital would be a 550-bed facility with a total built-up size of 5.76 lakh sq ft, minus a provision for 1 lakh sq ft of multilevel parking space.

The corporation would invest more than 500 crore in the project, with the first phase, which will have a capacity of 350 beds, projected to be operational by FY26.

This super-specialty facility will house several centres for clinical excellence that will cater to the functions of Cardiac Sciences, Organ Transplant, Neurosciences, Orthopaedics, Oncology, Urology & Nephrology, Gastro Sciences, and Woman & Child wellness.

The hospital will offer OPD, IPD, ICU including high dependency units, NICU, PICU and transplant ICU, day-care support and 24 hours trauma & emergency response services. Robotics and new generation systems would be introduced gradually.
