

Be Well Institutions, a 'Small Giant' multispecialty hospital chain, said that it plans to expand in Tamil Nadu and enter Karnataka and Andhra Pradesh by adding 15 additional hospitals by 2025, bringing the total number of hospitals in the group to 25.

"More than 46% of patients travel more than 100 km to seek medical care since 80% of doctors and 60% of hospitals are in large urban cities. Though private sector is the leading health care provider, the major players exist only at the tertiary level and major cities. There is a clear need for offering higher secondary care which people could use as a first port of call rather than walking into tertiary hospitals for Primary and Secondary ailments," CJ Vetriavel, Founder Chairman & Managing Director of Be Well Hospitals said in a statement.
