

Blu Smart is prepared to treble its fleet by the end of the year and intends to have over 1,00,000 EVs on its platform by 2025 as India jumps on the EV bandwagon with the government actively encouraging many use cases.

According to Rishabh Sood, CTO of **Blu Smart**, both the state and the federal governments have responded very well to the need for charging infrastructure and have floated numerous projects on a PPP basis.

In order to maintain **Blu Smart**'s services up and running with zero downtime due to the startup's constantly expanding customer base, Sood added, the company relies on a number of AWS services.
