

EV chargers

BSES Yamuna Power Limited (BYPL) has commissioned India's first Smart Managed EV Charging Station in Mayur Vihar in east Delhi.

It stated that the EV charging station is placed at BYPL's 11 kV sub-station building in Mayur Vihar Extension Phase-I and can charge five e-vehicles at the same time.

The carefully chosen location serves as a gateway to Noida and is easily accessible to electric vehicle owners and fleet operators.

More smart EV charging stations would be rolled out in the south, west, east, and central Delhi, depending on the reaction, it said.
