

BYD India said that it has worked with three businesses to put up charging infrastructure for its electric vehicles in India: Chargezone, Volttic, and Indipro.

The business stated in a statement that this partnership will cover the charging demands of its electric multi-purpose vehicle, the e6, spanning several cities and major roads across the country.

“By enabling easy and convenient charging stations across major cities and [highways](#), we will be supporting our customers in a smooth and happy electric driving experience,” [BYD India](#) Senior Vice President - Electric Passenger Vehicle Business, Sanjay Gopalakrishnan said.
