

Carysil has paid Rs 8 crore for 60,000 square metres of land in Bhavnagar, Gujarat, to fuel future capacity expansion and new projects.

The parcel of land is near Carysil's existing manufacturing plant in Bhavnagar, which has a total installed production capacity of 100,000 sinks per year. It will help the company's next growth phase for product development innovation, allowing it to continue to provide value-added and high-quality products to its global customers.

In Asia, the company manufactures quartz kitchen sinks and sells a variety of built-in kitchen appliances.
