

Chemcon Speciality Chemicals Ltd begins commercial production of P9 Unit at Manjusar, Gujarat | 1

The P9 facility at Manjusar, close to Vadodara, Gujarat, has successfully started up commercial production for [Chemcon Speciality Chemicals Ltd](#). At the P9 facility, the corporation has increased the capacity of bromo benzene by 2,400 MTPA. The business is also considering adding the pharmaceutical ingredient guanine to the same plant. With a 10 crore rupee investment, the business launched a nearly 2.1 MW solar power facility in Dabhoi, Vadodara. Captive use of this solar power facility will lessen reliance on non-renewable sources of electricity.

Commenting on the product addition, Kamal Aggarwal, Chairman & MD said, “This is a significant achievement for the company as we have added a new product which will cater to the Agro-Chemical market across the globe. We already have a reasonable presence in Inorganic bromides through calcium Bromides, Zinc Bromides and Sodium Bromides. With the expansion of Bromo Benzene, we will be adding Organic Bromides in our product basket.”
