

Adani Power Ltd (APL) announced that an 800 MW unit of its thermal facility in Jharkhand has started operating commercially. The Adani Group company stated in a filing that the second unit of the 1600 MW project is also nearing completion and will likely be commissioned soon. This is to advise you that unit 1 of the Adani Power (Jharkhand) Limited's ("APJL") 2×800 MW ultra-supercritical power facility, located in Godda, has achieved commercial operations, it stated.

APJL, a wholly-owned subsidiary of Adani Power, will supply the power under a 25-year Power Purchase Agreement (PPA) for corresponding net capacity of 748 MW from unit 1 to the Bangladesh Power Development Board.
