

<https://newprojectstracker.com/blog/wp-content/uploads/2022/01/BHEL-seeks-Technology-Collaborator-for-Industry-4.jpg> India's data centre industry size is worth USD 5.6 billion and is set to grow as over 45 data centres are expected to come up by 2025, according to Anarock and Binswanger report.

At present, there are 138 data centres across India spanning about 11 million square feet and having 737 MW of IT capacity (building ready). At least 57 per cent of this current IT capacity is in Mumbai and Chennai, collectively.

As per the latest Anarock and Binswanger report 'Under the Lens: India's Data Centre Explosion', over 45 data centres spanning about 13 million square feet and 1,015 MW of IT capacity are planned to come up in India by 2025-end on rising demand amid the Covid pandemic.
