

Devi Polymers (Unit-D) is a company that specializes in the production of a range of chemical products. The company is now planning to take up a new project in the field of aluminium hydroxide manufacturing in Thirumudivakkam, Kundrathur, Kancheepuram, Tamil Nadu. The project involves the setup of a new manufacturing unit that will have the capacity to produce 500 Tons of aluminium hydroxide per month. The company has taken all necessary steps to ensure that the project is implemented in a manner that is environmentally sustainable and responsible. As a result, the company has received consent from the state pollution control authorities to establish the project, which is a crucial step towards the success of the project. The new manufacturing unit will be equipped with state-of-the-art technology and machinery, ensuring that the company produces high-quality aluminium hydroxide products that meet the demands of the market.
