

DurgaPolysters, a well-established company in the textile industry, is planning to establish a synthetic fabrics manufacturing unit in Surat, Gujarat. The facility will specialize in the production of dyed and printed man-made synthetic fabrics with a capacity of 135,168,000 meters per year. The company has filed an industrial entrepreneurs' memorandum in November 2022, signaling its intention to move forward with the project. As of February 2023, the project is in the planning stage. DurgaPolysters has a rich history in the textile industry, and is known for its high-quality synthetic fabrics and innovative approach to textile production. The company has a strong commitment to sustainability and environmental protection, and is dedicated to providing its customers with the highest quality products. With the establishment of this new manufacturing unit, DurgaPolysters aims to expand its reach and bring its expertise in synthetic fabrics production to the Indian market.
