

Epsilon Carbon would invest Rs 550 crore to nearly treble the capacity of its plant. From 115,000 tpa, the investment will increase the company's manufacturing capacity to 225,000 tpa.

A 25 MW captive power generation plant will also be built as part of the investment at the Vijay nagar factory in Karnataka. The money will be raised through a combination of internal accruals and debt.

With this growth, **Epsilon Carbon** will surpass PCBL and Birla Carbon in terms of manufacturing capacity.

By 2030, the company also wants to expand into greenfield facilities and raise its manufacturing capacity to
