

ESR GMR Logistics Park is a company that is planning to expand its existing GMR logistics and warehousing park located in Village-Mamidipalli, Mandal- Saroor Nagar, Ranga Reddy, Telangana. The expansion project aims to increase the capacity of the park to better meet the growing demand for logistics and warehousing services. The estimated cost of the project is Rs.2793.7 million and construction is planned to begin in March 2023 and end in January 2025. As of February 2023, the company is in the process of obtaining environment clearance for the project. This clearance is an important step in ensuring that the expansion project meets all the necessary environmental regulations and standards. A logistics park is a multi-functional and integrated complex that provides a range of logistics and supply chain management services. It typically includes facilities for warehousing, distribution, transportation, and other support services, all designed to enhance the efficiency of the supply chain process. The goal of a logistics park is to bring together different logistics-related activities in a single location, with the aim of reducing costs, increasing operational efficiency, and improving the speed and reliability of goods delivery.
