

[Extek Profiles](#) is a company in the aluminum industry that plans to establish a new aluminum sections manufacturing project in Mahadevpur, Bibinagar, Yadadri, Telangana, India. The proposed facility will have a production capacity of 25 metric tons per month of aluminum sections. The estimated cost of the project is Rs. 28.6 million. As of February 2023, the company has obtained the necessary approvals from the state pollution control authorities to proceed with setting up the project. This new manufacturing facility will enable Extek Profiles to expand its production capacity and strengthen its position in the aluminum industry. The company's commitment to investing in cutting-edge technology and infrastructure demonstrates its dedication to staying at the forefront of the industry and meeting the evolving needs of its customers.
