

Nitin Gadkari, the Union Minister for Road Transport and Highways, inspected the development of the Ahmedabad-Dholera Expressway, which will cut the travel time between the two locations by around one and a half hours.

A total of \$4,200 crore is being spent on the 109 kilometre long greenfield corridor.

“It will act as an important route to connect Ahmedabad and Dholera and connect several special investment zones of Dholera to Ahmedabad. This expressway will enable high speed travel between Ahmedabad and Dholera and reduce the travel time to about 1 hour (from 2.25 hours at present),” Gadkari said talking to mediapersons at Dholera.

The union minister said that they are aiming to complete the expressway project by January 2024.
