

An official announcement revealed that GAIL (India) Limited has started India's first project of mixing hydrogen into the natural gas system in Indore, Madhya Pradesh.

This is the country's first-of-its-kind enterprise. Avantika Gas Limited, a joint venture between GAIL and HPCL that operates in Indore, would get the hydrogen blended natural gas.

GAIL has begun hydrogen blending as a pilot project to determine the techno-commercial viability of mixing hydrogen in the CGD network, in accordance with the National Hydrogen Mission.
