

IPICOL and GAIL (India) Limited have signed a Memorandum of Understanding (MoU) for collaboration in the areas of green hydrogen, green ammonia, and renewable energy (solar/wind) for the manufacture of environmentally friendly fuels in Odisha.

As per an official statement, the scope of the MoU inter-alia includes preparing a feasibility study for setting up proposed plants and the MoU also emphasizes promoting the production of eco-friendly fuels in Odisha.

“Green Hydrogen would help the industries cut aggregate emissions of GreenHouse Gases (GHGs) thus contributing to the overall objectives of the Central government’s INDC targets. Odisha, being a power surplus state, is looking to further strengthen its position in power and these upcoming plants will help Odisha based heavy industries to supplement their growing power requirements,” read the statement.
