

Gautam Solar, a Delhi-based solar producer, announced that it has increased the capacity of its solar module mounting structure manufacturing operation from 50 to 500 metric tonnes (MT) per month.

According to a news statement from the company, the unit will create module mounts for solar pumps, solar power plants, solar street lights, and high masts.

Gautam Solar managing director Gautam Mohanka said, " Our expansion plans have been in the pipeline for a while... The unit promises to be a one-stop solution for solar power plant and pump systems integrators."
