

GMM Pfaudler, a company that makes glass-lined reactors, tanks, and columns for pharmaceutical and chemical firms, has announced the expansion of its Hyderabad site. To improve capacity, the business would invest an extra \$3.7 million (about Rs 28 crore). GMM Pfaudler had previously purchased the glass lining equipment manufacturing facility in 2020 for \$6.3 million (about Rs 48.5 crore). In less than two years, the firm has virtually doubled its capacity, employing more than 300 individuals.

“I’m delighted to note the phenomenal growth of GMM Pfaudler in Hyderabad and its expansion plans. I’m sure that the Hyderabad operations will continue to play a pivotal role in the global aspirations of GMM Pfaudler,” said Industries Minister KT Rama Rao, who met with GMM Pfaudler CEO (International Business) Thomas Kehl.
