

Amara Raja Batteries and GMR Aerocity have agreed to establish a research and development centre at Hyderabad's GMR Aerospace & Industrial Park.

According to Aman Kapoor's LinkedIn post, the company has decided to establish research and development (R&D) labs in India to develop cutting-edge sustainable energy solutions for mobility and energy storage.

He said, "This will be a one-of-a-kind institute, pioneering the development of advanced clean energy technologies for mobility and energy storage in India. The Center will help startups by providing lab and incubation space as well as a collaborative ecosystem.
