

A critical LC Max Vacuum Tower is delivered by Godrej Process Equipment to a refinery modernization project in Visakhapatnam, Andhra Pradesh.

The Supersised equipment, which has a diameter of 9,600 mm, is Godrej Process Equipment's largest product. This 700-tonne, 65-meter-long tower will be installed at a Residue Upgradation Facility in Vishakapatnam, Andhra Pradesh, to convert the heaviest Crude oils into high-quality BS-VI fuel while also boosting feedstock and product flexibility.

This upgrade will allow the refinery to process an additional 80,000 barrels of crude oil per day
