

**Grasim Industries Limited** has successfully commissioned a new Viscose Staple Fibre (VSF) (Line 5) line with a capacity of 300 tonnes per day (TPD) at its Grasim Cellulosic Division in Vilayat, Gujarat, and will begin commercial production on February 12th, 2022.

With this, the company's overall VSF capacity has increased from 700,500 to 810,000 tonnes per year (TPA).

Grasim Industries is a global leader in VSF and India's largest chemical (Chlor-Alkali) company. Through its subsidiaries UltraTech Cement and Aditya Birla Capital, it is also India's largest cement producer and provider of diversified financial services (NBFC, Asset Management, and Life Insurance).

Grasim has also declared plans to enter the decorative paints market. At Grasim, we strive to provide long-term value for our customers.
