

The official opening of the greenfield distillery facility of BCL Industries Ltd's subsidiary Svaksha Distillery Limited in Kharagpur, West Bengal, was held recently.

Around 75% of the subsidiary Svaksha Distillery is owned by BCL Industries.

This brand-new, cutting-edge grain-based distillery plant can produce 200 KLPD of ENA and Ethanol. The business has finished all work at the factory and has obtained all essential approvals for the start-up.

The expanding demand-supply gap for ENA and ethanol in West Bengal and the need to lower the logistical costs of ENA delivery from the company's Bathinda plant to West Bengal are only two of the reasons this greenfield development was carefully planned.
