

HAL and SASMOS, a Bengaluru-based startup, have inked an MoU to collaborate on sophisticated electronics, electrical, and fibre optic connectivity in the aerospace industry. On March 11, the two corporations agreed to a memorandum of agreement. According to SASMOS, HAL's subsidiary [Naini Aerospace Limited](#) (NAeL) was also a signatory to the MoU. "The MoU is intended to explore business cooperation, especially in the northern India, through utilization of capacity and capabilities of NAeL to bring their expertise in fibre optics, electronics and electrical interconnected system in the aerospace domain through the support from HAL and SASMOS," it added.
