

ARs 208 crore Integrated Cryogenic Engine Manufacturing Facility (ICMF) has been established by [Hindustan Aeronautics Limited](#) in Bengaluru to handle all of the Indian Space Research Organization's rocket engine production under one roof.

The cutting-edge ICMF, built over a 4,500 square metre area housing more than 70 high-tech tools and testing facilities for producing cryogenic (CE20) and semi-cryogenic (SE2000) engines of Indian rockets, will be officially opened by President Droupadi Murmu.

A memorandum of understanding (MOU) was signed with [ISRO](#) in 2013 for the establishment of a facility to produce cryogenic engine modules at HAL's Aerospace Division. It was later updated in 2016 for the establishment of the ICMF with an investment
