

Hubert Enviro Care Systems (HECS) announced that it has purchased a 2.5-acre industrial land lot in the SIPCOT Vallam Industrial Estate on the outskirts of Chennai for the purpose of establishing its second production unit for FRP Packaged Sewage Treatment Plants (STPs). “The company has acquired this Industrial land parcel with a vision to set up a unit with a manufacturing capacity of around 600 units per year which is around 15 times more than their existing units capacity. These standardized FRP STP units proudly designed and manufactured in India are of the highest standards. The company will also be using this manufacturing unit to fulfill our export demands across Asian, European, and African markets,” Dr. JR Moses, CEO of HECS said.
