

Indaco Jeans, a well-known denim brand, has recently announced plans to undertake a new project in MIDC Tarapur, Palghar, Thane, Maharashtra. The project aims to establish a new facility for the production of ready denim garments with a capacity of 92,000 pieces per month. The proposed development reflects the company's commitment to expanding its manufacturing capabilities and increasing its presence in the Indian market. The project is expected to cost around Rs.94.089 million, reflecting the significant investment required to establish a state-of-the-art manufacturing facility. The company will invest in advanced machinery and equipment, as well as recruiting skilled labor to ensure high-quality production and efficient operations. As of February 2023, Indaco Jeans has received consent from the state pollution control authorities to establish the project, indicating that the company has met the necessary environmental and regulatory requirements for the proposed development. This demonstrates the company's commitment to environmental sustainability and responsible business practices.
