

Shree Cement Ltd. has awarded Isgec a major contract for Cement Waste Heat Recovery Boilers for its 3.8 MTPA clinker capacity, integrated Cement Plant in Nawalgarh, Rajasthan. The scope of work comprises designing, producing, and providing PH and AQC boilers for the Pre Heater and Cooler exhausts, respectively.

These plants will generate 35.5 MW of power and will be one of the world's largest capacity Cement Waste Heat Recovery based Green Energy Steam Generation Plants.

Similar Cement Waste Heat Recovery Boilers were previously installed at Isgec's Raipur Line #3 Plant for Shree Cement. The current order for the Nawalgarh plant will be Isgec's third from Shree Cement, according to the company.
