

JSL to invest in renewable energy sector, plans to build 300 MW solar and wind capacity in 3 states | 1

JSL's MD, Abhyuday Jindal, stated that the company is interested in investing in the renewable energy sector and plans to build 300 MW of solar and wind capacity in three states. He stated that no additional investments in thermal energy would be made. However, the entrepreneur did not say how much JSL plans to invest in renewable energy capacity.

"It would be premature to provide any figures. However, we are eager to invest in the renewable energy business. Both solar and wind power will be available "On the sidelines of the Global Stainless Steel Expo (GSSE) 2022, Jindal stated.
