

According to JSPL's MD V R Sharma, the business wants to build the country's second coal gasification facility at its Raigarh plant in Chhattisgarh.

At its factory in Angul, Odisha, the firm is already using coal gasification technology to create steel.

The factory, which has a capacity of 2 million tonnes per year and was launched in 2018, is India's first and only plant to produce steel from 'swadeshi' coal utilising [coal gasification technology](#)
