

Jubilant Ingrevia Limited has announced the commissioning of its brand-new Acetic Anhydride factory on a global scale at Bharuch, Gujarat.

Jubilant Ingrevia Limited's total annual capacity for acetic anhydride is increased by this factory by about 60,000 MT, bringing it to 210,000 MT.

This improved capability will also assist the Company in expanding its presence across the globe and achieving a dominant position in the world's merchant marketplaces.

It further solidifies and consolidates Jubilant Ingrevia Limited's position as the market leader in the domestic market.

Jubilant Ingrevia Limited has earned a reputation as a "partner of choice" for providing acetic anhydride for a variety of end uses across the globe for a number of decades.

This facility augmentation will further strengthen the relationship that Jubilant Ingrevia Limited enjoys with its global clients.
