

Kairos Technologies, a multinational company with a delivery centre in Hyderabad, recently announced the opening of K-Labs, a specialised R&D facility.

A \$15 million (about Rs 120 crore) investment will be made in K-Labs to develop innovative products that mix machine learning and artificial intelligence. The company currently has 1,000 employees and expects to add 400 more this year across several geographies.

“Our portfolio of digital quality engineering solutions and services helps businesses to scale up their digital landscape and harness the technologies for growth and agility,” said Sudhakar Pennam, Founder and CEO, Kairos Technologies.
