

On its Bengaluru campus, [Kennametal India Limited \(KIL\)](#), a division of Kennametal Inc., debuted its brand-new metal cutting inserts manufacturing plant on Tuesday. According to the company, the facility will meet demand for Kennametal and WIDIA brand inserts from clients throughout India and beyond as part of Kennametal Inc.'s global modernization initiative. Inserts are cutting tools used in a wide range of tasks that involve the machining or removal of metals.

"Our manufacturing plant in Bengaluru spans over 27 acres and has been pivotal to our growth in India for decades. It has unique capabilities for end-to-end manufacturing of industry-leading metal cutting tools and technologies that enable exceptional performance for our customers," said VijaykrishnanVenkatesan, Managing Director, KIL.
