

The Karnataka Industrial Areas Development Board is planning a new industrial area development project in Doddaballapura and Devanahalli, Bangalore, Karnataka. The project aims to develop a general industrial area spanning approximately 399.25 ha, which will house various non-polluting industries, including aerospace, automobiles, electronics, IT, and engineering-related establishments. The project will also include residential development. The estimated cost of the project is Rs. 3063 million, and construction is set to begin in December 2023, with completion expected by December 2025. As of February 2023, the company has submitted the proposal and its Terms of Reference (ToR) to the Ministry of Environment and Forests and is awaiting clearance to proceed with the detailed project report. The Karnataka Industrial Areas Development Board is a state government agency responsible for the development of industrial areas in Karnataka. The agency works to promote economic growth and development in the state by providing world-class infrastructure and other essential amenities to industries. The agency has a proven track record of successful industrial development projects in the state and is committed to sustainable and responsible industrial growth.
