

Leading renewable technologies company bags LoA for Solar Project of 6.5 MW | 1

A letter of award (LOA) for engineering, procurement, and construction (EPC) services in relation to the establishment of a solar power project with a 6.5 MWp capacity as well as five years of operation and maintenance services has been received by Waaree Renewable Technologies Limited (Formerly known as Sangam Renewables Limited). According to the terms of the order, the project is anticipated to be finished in F.Y.2023-2024.

It may be recalled the Waaree Renewable Technologies had recently announced that it had secured an order towards the construction of a 221.8 MW solar power project for a major Indian steel manufacturer.

The firm will be responsible for the Engineering, Procurement and Construction works of the solar power project.
