

A leading automaker has given [L&T Construction](#)'s Buildings & Factories Business the go-ahead to build a cutting-edge manufacturing plant in Haryana, India.

The scope includes designing and carrying out architectural, structural, and civil work, as well as outside development work.

This victory follows a noteworthy order from Reliance Life Sciences, a prominent biotech company, to build their cutting-edge production facility for life sciences goods in Maharashtra, India.

The Public Works Department of the Government of Assam has also given the company the go-ahead to build a police reserve campus in Guwahati.

The scope of work comprises designing and building offices, multi-level parking structures, police housing, and related buildings with regard to their structure, finishes, MEP, and associated exterior development work.
