

The Gujarat Water Infrastructure Limited (GWIL) has placed engineering, procurement, and construction orders for the Dhanki - Navda Bulk Pipeline project, which intends to increase water delivery capacity to meet future demands in the Gujarat districts of Amreli, Junagadh, Botad, and Rajkot.

The project entails the design and construction of a 99-kilometer MS bulk transmission pipeline, a 10.5-mile RCC raw water sump and pumphouse, as well as accompanying electro-mechanical and instrumentation work.

The company is also working on a bulk pipeline project for GWIL at the same area. Furthermore, the company's international arm has been granted a project for the supply, installation, testing, and commissioning of a water distribution network by a famous customer.
