

L&T Hydrocarbon Engineering, a subsidiary of engineering behemoth Larsen & Toubro, has been awarded a contract for between 2,500 and 5,000 crores to develop ONGC's 350-kilometer subsea pipes off India's west coast.

As part of ONGC's Pipeline Replacement Projects' seventh development phase, the contract includes engineering, procurement, construction, installation, and commissioning of subsea pipes and related offshore activities.

"The EPCIC contract involves Engineering, Procurement, Construction, Installation and Commissioning of ~ 350 kms sub-sea pipelines and related offshore works spread out across India's west coast offshore fields of ONGC," L&T said.
