

HWM EnviroPvt. Ltd. has provided Taylormade Renewables Ltd. with a letter of intent dated April 19, 2023 for a work order for TRL RAIN Technology Plants valued at Rs 145 crore. The task is to establish common effluent treatment facilities in the Gujarati GIDCs of Chhatral, Tarapur, and Panoli for the treatment of hazardous concentrated streams from various industries.

Following the initial phase's completion of these three facilities, other similar amenities will be made available to all GIDCs in Gujarat and other Indian States.

Taylormade Renewables is a company that provides renewable energy solutions. The company has developed cutting-edge technology for hazardous wastewater treatment and zero liquid discharge.
