

Megha City Gas Distribution is a leading player in the natural gas distribution space in India. The company is primarily engaged in the distribution of compressed natural gas (CNG) and piped natural gas (PNG) to industrial, commercial and domestic customers across various cities in the country. With a strong focus on sustainability and energy efficiency, Megha City Gas Distribution has been actively involved in promoting the use of natural gas as a clean and green alternative to traditional fossil fuels. The company has a well-established distribution network spanning multiple states in India, and has been instrumental in driving the adoption of natural gas in various industries such as automotive, power, and manufacturing. Megha City Gas Distribution is also involved in the setting up of new natural gas infrastructure projects, with a view to expanding its footprint and meeting the growing demand for natural gas in the country. The new liquefied natural gas storage project in Madhya Pradesh is a testament to the company's commitment towards promoting sustainable energy solutions and supporting the government's vision of building a cleaner and greener India.
